Information Technology Sector

NAGARRO

Nagarro is one of the world's fastest growing Digital Engineering technology services provider with over 20,000 associates operating in more than 40 countries across the globe. It services leading organisations of the world in various industry verticals like banking, financial services, insurance, telecommunications, retail, transport and logistics, airlines, automotives, education, hi-tech et al.

Nagarro's service delivery centers are spread across the globe viz. India, Sri Lanka, Romania, Hungary, Austria, Poland and Philippines serving as primary centers with small centers spread across all the continents.

Our South Africa journey started in 2018 by signing a leading bank as our client; currently we service more than a dozen large clients with over 600 consultants engaged in providing the cutting-edge technology project engagements. We have a local staff compliment of more than 40 associates.

The South Africa office in Johannesburg is utilised as Africa headquarters as we have active engagements in more than 7 African countries and both the business development as well as service delivery efforts are coordinated from here.

We aspire to be the largest South African digital engineering technology service provider with project engagements involving more than 3000 associates by 2030 out of which one third to be local staff compliment. We have been investing towards that goal in various organisational development strategies and execution.

Chittaranjan Jena is the Director at Nagarro, leading sales operations in South Africa with over 20 years of experience in the IT industry. He holds degrees from the Indian Institute of Technology, Kharagpur, and Xavier Institute of Management, Bhubaneswar.
