

Manufacturing / Automotive Sector

MSSL GLOBAL RSA

Motherson was founded in 1975 as a small family trading company by our current chairman, Vivek Chaand Sehgal and his late mother, Shrimati Swaran Lata Sehgal. Within a few short years, the company would move from silver trading to making electrical wiring for homes. In 1977-First cable factory launches a new direction for the family firm

In 2012 we establish footprint in South Africa by setting up manufacturing plants in Rosslyn & Durban for Ford & Toyota. We also entered a JV with Vacuform 2000 for Thermoforming and Blow Molding parts. Our annual turnover for FY23-24 ending Mar 2024 is approx. at R 3.2 billion. Through our above facility we supply Plastic Injection Molded Parts to Toyota, Ford, BMW, Mercedes Benz, Volkswagen and other Tier 1 supplier.

Currently, we have around 1900 employees on our payroll, based in Gauteng & KZN. We aspire to be a globally preferred solutions provider by ensuring customer delight, enhance shareholder value, set new standards in good corporate citizenship and Involve employees as "partners" in progress

MSSL RSA is led by our Sr. VP and Regional Head, Mr. Raffik Sayyed, a dynamic leader with over 25 years' experience in the Automotive industry heading medium to large size operations across the globe including the last 3 years in RSA.
