

Manufacturing Sector

SRF FLEXIPAK

SRF Flexipak (South Africa) (Pty) Ltd is a wholly owned subsidiary of SRF Limited, a diversified global company manufacturing Fluorochemicals, Specialty Chemicals, Technical Textiles and Packaging Films. SRF Flexipak is in the packaging films segment, which has 6 operational sites in 4 countries, and a customer footprint in 90 countries.

SRF Flexipak offers a spectrum of innovative solutions in Bi-axially Oriented Polypropylene (BOPP) films, for use in diverse industries. Predominantly used in flexible packaging of fast-moving consumer goods (FMCG) such as soaps, detergents, tea, shampoo sachets, food packaging, etc. Also used in industrial applications such as cable, insulation, ducting, tape & textile.

SRF Flexipak commenced operations in South Africa in 2013. The flagship manufacturing plant is located in Cato Ridge, Kwa-Zulu Natal, and is the only BOPP manufacturing plant in the country.

The company provides employment to 250 people on site and has the capacity to produce 30 000 MTPA (metric tons per annum) of flexible film. The primary geographical market is South Africa, but the company also exports product to other African countries.

The company's aspirations include Professional Reputation & Value System; Operational Excellence; Innovation and Technology Leadership; Customer Advocacy and Environment and Social Responsibility.

SRF Flexipak is led by Country Head, Mr. Pieter Jordaan. Mr Jordaan has many years of experience in the packaging industry and has been at the helm at SRF Flexipak for the past 5 years.
