# **AURIC MINING**

Auric Mining, established in August 2018, has quickly become a notable entity in the mining industry, with a specialization in technical services, commodity trading, and logistics. The company focuses on key minerals such as coal, chrome, manganese, and lithium ore. By leveraging its extensive knowledge of mining and commodity markets, Auric Group provides comprehensive supply solutions to clients both locally and internationally.

The core businesses of Auric Mining, which is facilitating the supply of various mineral grades. Auric Logistics, a subsidiary of Auric Mining, offers warehousing and FOB solutions, with a strategic SOS bonded warehouse facility located in City Deep, Johannesburg. This subsidiary excels in connecting sustainable commodity supplies through well-established road, rail, and sea-freight networks.

Auric Group's key offerings encompass logistics and mobility solutions for minerals across the SADEC region, turnkey solutions for the supply of coal, chrome, manganese, and lithium ore, and the provision of mining equipment, consumables, and accessories. The company's international presence is marked by its export activities to China, India, and the UAE, demonstrating its capacity to serve a diverse global market beyond South Africa.

Corporate details reveal that Auric Group has an annual turnover of approximately 180 million ZAR and employs a team of nine dedicated professionals. The company is headquartered in City Deep, Johannesburg, with operations that extend both nationally and internationally.

Auric Group aims to expand its footprint in the mining and logistics sectors, enhancing its capabilities in sustainable supply chain management and adopting cutting-edge technologies to drive operational excellence.

The leadership of Auric Group is spearheaded by LN Sarma Boddupalli, the Founder and Managing Director, who is a seasoned mining engineer with over 21 years of industry experience, including 14 years in African mining. His expertise covers everything from greenfield projects to operational mines. Known for his passion for technological advancements in mining, LN Sarma is a diversified entrepreneur.
