# **SKYLABS**

SKYLABS is a leading provider of laboratory supplies, dedicated to delivering high-quality products and services that enhance scientific research and development.

We specialize in supplying a wide range of laboratory equipment, chemicals, consumables, glassware, reagents, and medical supplies to various industries such as Mining Industries, Pharmaceutical, Food and Beverage, Educational sector, Healthcare sector and R&D.

SKYLABS serves clients not only within South Africa but also extends its services to neighboring countries supporting laboratories and research facilities, establishing a strong presence in the SADC region.

LNS Laboratory Supplies T/A SKYLABS has been operating in South Africa since its establishment in May 1992. SKYLABS is an SME with a turnover of under 10 million employing around 10 dedicated professionals.

We have a robust presence across South Africa, with offices and distribution centers strategically located in Johannesburg. Our aspiration is to continue to grow and be a leader in the laboratory supplies sector, expanding our footprint, enhancing our product range, and supporting scientific advancements through our offerings. SKYLABS was founded by Mr. G. Naidoo (Leo) and Mrs. Saroj Naidoo in May 1992. They continue to play a crucial and active role in the organization. Leo brings over four decades of experience, and Saroj has more than 30 years of expertise in the field.
