

## Mining & Metals Sector

# TEGA INDUSTRIES AFRICA

Tega Industries is one of the leading manufacturers of specialised 'critical to operating' and recurring consumable products for the global mineral beneficiation, mining and bulk solids handling industry. The company is the second largest producer of polymer-based mill liners, which are critical components in driving efficiency and lowering cost per ton of operation.

In South Africa we started our journey in 2002, the group has distinguished itself as a lasting solutions provider, and is today amongst the largest manufacturer of mill liners globally.

The South African subsidiary of Tega Industries serves customers in Zambia, Mozambique, The Democratic Republic of Congo, Tanzania, Botswana, Ghana, Mali and Burkina Faso in addition to the South African market. We are a multi-national company and has six manufacturing facilities In Chile, Australia, South Africa and India, which exports products to 70 countries.

Tega has been a rubber manufacturing supplier to mines and materials handling operations for almost 50 years and can now supply the full solution from mills or screens to liners and consumables.

Tega Industries most successful innovations has been its Dyna Prime combination liner, which involves steel and rubber being successfully bound to form a liner that is lighter, quicker to install and more durable than conventional steel liners. Tega Industries Africa will start manufacturing Capital equipment following its acquisition of US-based McNally Sayaji equipment. The merged and rebranded Tega McNally Minerals will supply a broader range of solutions for the global mining market, including apron feeders, jaw crushers, ring granulators, hammer mills, vibrating screens, grinding mills, thickeners, flotation cells, scrubbers, slurry pumps and solid bowl centrifuges.

Our annual turnover for FY23-24 ending March 2024 is + R 200 Mn. Our exports in FY23-24 are in excess of R100 mil. Currently we have around 150 employees on our payroll, based in Gauteng.

Tega Industries Africa is led by our Business Unit Head Vishal Gautam, a dynamic leader with over 16 years' experience in the field of Mining and Manufacturing. He has a Btec in Mechanical Engineering and has done his MBA from University of Pretoria.

### **TEGA INDUSTRIES AFRICA PTY LTD**

99 Uranium Road, Vulcania,  
Brakpan
