Other Sector (ICT and Facility - Energy)

EIS IT AFRICA

EIS IT Africa is a value-added distributor of structured cabling systems, performance optimised data centre, MPO systems, fiber runners, UPS, rectifiers, precision cooling, smart PDUs, fire detection and suppression, raised floors.

Our Engineering Services division offers specialized design and engineering solutions for mission-critical environments. We manage the entire project lifecycle—from initial design through comprehensive implementation—ensuring optimal functionality, reliability, and scalability for your infrastructure. As an official Vertiv ISP Partner, we bring industry-leading expertise and innovative solutions to every project.

Our Expertise Includes: Custom Raised Floor Design and Implementation, Advanced Fire Suppression and Detection Systems, AC Power Solutions DC Power Solutions, Efficient and Sustainable Cooling Systems.

With a commitment to operational excellence, compliance, and innovative design, our Engineering Services division is your trusted partner in building efficient, resilient, and future-ready infrastructure.

In South Africa, we started our initial journey in 2002, the current shareholders took over in 2014. FY 2022-2023 we did an annual turnover of 57 million Rands, which included an export turnover of $500,000. The audited results of FY 2023-24 are yet to be finalised.

Currently, we have around 25 employees on our payroll, based in Gauteng and Western Cape and we expect our manpower to cross 27 by end of this year. We are the only company in South Africa to have Uptime certification in design, audit, operate and sustainability.

EIS IT Africa is led by our CEO, Mr. Ramnath Venkatachalam and the leadership team of CTO Mr. Riaan Herbst, CFO Mrs. Pranisha Sukha and COO Ms. Karusha Govender.
